

MIGRATING LINKS

STEPS

1. Click on the button in the navigation area that appears to be an External Site or Third-party Service

Home
CourseMap
Announcements
Syllabus
Modules
Assignments, Tests and Surveys
Discussion and Private Messages
Chat
Resources
Gradebook
External Site Example
Activity Meter

2. Or, click on "Site Setup" and copy and paste the links found in the "Site Links" section

The screenshot shows the Canvas LMS interface. On the left, there is a navigation menu with items: External Site Example 1, External Site Example 2, Activity Meter, Site Setup (with a green arrow pointing to it), and Roster. Below Site Setup is a 'users present:' section showing Heather Garcia. On the right, there is a list of site links: Home, CourseMap, Announcements, Syllabus, Modules, Assignments, Tests and Surveys, Discussion and Private Messages, Chat, Resources, Gradebook, and Activity Meter. Below this list is a section titled 'Site Links' with an 'Edit' button. Under 'Site Links', there are two entries: 'External Site Example 1' with the URL <http://www.boredpanda.com/cute-baby-animals/> and 'External Site Example 2' with the same URL. Green arrows point from the Site Setup button to the Site Links section and from the Site Links entries to the URL text.

3. Copy the URL and then paste it into a Word document or directly into Canvas
